

# Improve the Efficiency and Profitability of Your Manufacturing Operation

Do need a cross-trained workforce ready and able to adjust quickly?

Do your clients demand custom configuration at lower costs while maintaining high quality and quick delivery?

Are you seeking visibility and control across a complex global supply chain that includes contract manufacture, co-packing and 3PL?

What is your toughest manufacturing challenge?

Do you wish your machinery would tell you when it needed to be maintained, before it needed to be maintained?

Do you want a complete end-to-end picture across your supply chain and manufacturing processes?

Would you like to minimize inventory while improving your ability to change product lines quickly and efficiently?

#### If you have any or all of these challenges, then Bramasol has the right solution for you:

- Tailored solutions that support make-to-order and engineer-to-order business models
- · Complex variant configuration solutions
- Manufacturing solutions that are integrated with your core finance, accounting and purchasing systems to ensure end-to-end visibility of costs, availability and profit
- Industry tailored talent management and skills matching solutions to ensure you have the right people doing the right things
- · Improved supplier collaboration
- Order management solutions that improve speed, accuracy and visibility of customer orders and link them to suppliers or the manufacturing floor

We believe every business has the right to excel. Powered by the world's leading business software platform, SAP, our superior consulting and support team will partner with you to solve your toughest challenges.

Bramasol has the depth, strength and industry expertise to deliver high quality, cost-effective solutions. We help elevate customers to new levels of success and create lasting partnerships making the impossible, possible.

# Experience the benefits of Bramasol's Manufacturing Solutions:

- · Lower inventory carrying costs
