

Quick, Easy Matter Analysis

BIGSQUARE Matter Management

Matter Management

BigSquare's Matter Management allows for quick analysis and better management of your critical client and/or matter engagements. The integration with BigSquare's profitability metrics allows your end-users the ability to easily perform profitability analysis on the dimensions that contribute to the overall health of your engagements. Matter Management enables your firm to respond and manage requests for both alternative and standard fee arrangements with confidence and ease and can even drill down to the phase and task level detail.
