Know more about our services

Dedicated Development Team

We build your team and manage the entire operations, giving you the accessibility to work directly with the skilled resources allotted for dedicated development and delivery of your product.

Easy Scaling

We help you to easily scale up the team without having to spend time on the recruitment process.

Managed Operations

Our dedicated team helps you with all operational process, so you can just focus on outputs.

Project Fit Resources

We align right resources to your product considering technical and domain expertise.

Easy Communication

We facilitate smooth communication channels to help you stay on top always.

Dedicated Team Extension

OpenXcell screens world-class developers and augments them into your existing team. It gives you an opportunity to build and scale with our highly experienced developers to expand your business.

Scale Up Easily

Our top notch recruitment team helps you onboard highly skilled tech talents on demand.

Cultural Alignment

We focus upon building culturally fit, cross border team that aligns with your team goal.

Cyber Security

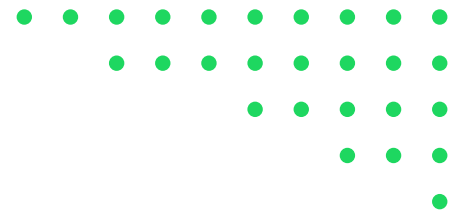

We comply all security protocols to ensure complete data security & protection.

Complete Control

You have complete control of your team with 100% transparency & accountability.

Offshore Development Center

We create a dedicated Offshore Development Center (ODC) for our clients and give them complete freedom to scale up and build a team of highly skilled developers and project managers.

Rapid Scalability

We build and scale your team at a quick pace to achieve your business goals.

International Expansion

Our model helps you to setup new development center overseas to scale your business.

Your Culture

We focus upon setting up same brand value and cultural experiences as per your company.

Your Ownership

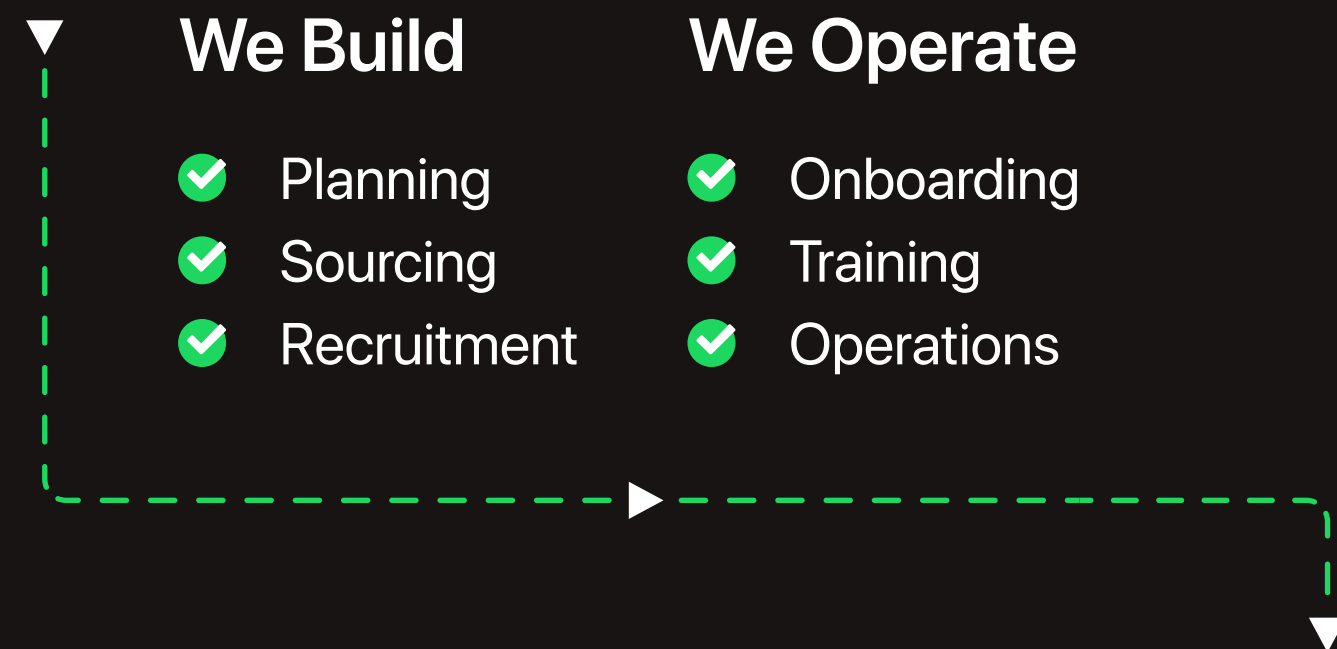

Unlike other providers, we go one step ahead and help you transfer the team ownership when required.

Our Model
